SKILLS  
IN-SIGHT

**Furniture and Fittings Skill Council's (FFSC) initiative provides insight into the skill ecosystem in short bytes and keeps stakeholders updated. The monthly update will share the significant activities and initiatives which the council has initiated in the month.**

## NEWS FROM SKILL ECOSYSTEM

SUCCESS STORY **decora**

My father is a Business person and my mother a home-maker. I got to know about the training from FFSC's official Page on LinkedIn. The field of furniture design was something I very passionate and it drew me to take it as a career option.

The training was very focussed as per industry requirement and took care of everything a person should know before joining as a Multipurpose Draughtsperson. It becomes easier to get a job once all the bases are covered.
